Appeal for FOIA Request Dated 11.26.2023

Dear CT FOIA Officer,

I am writing to formally appeal the decision regarding my Freedom of Information Act (FOIA) request dated November 26, 2023, concerning oversight records on Connecticut's Department of Social Services (DSS) and its Acquired Brain Injury (ABI) Waiver Program.

Response to Previous Correspondence

In your response, you suggested that the Office of the Governor would be the best contact for such a request and considered the request completed within the Department of Social Services. I appreciate this guidance. However, it is crucial to clarify that my initial request was indeed directed to the Office of Governor Ned Lamont, specifically seeking records from this office in relation to CT DSS.

Basis for Appeal

The information sought is of significant public interest as it pertains to the oversight and management of the ABI Waiver Program, a critical service for individuals with acquired brain injuries. The records are essential for understanding how the Department of Social Services is fulfilling its responsibilities and obligations under Section 17b-260a-10 of the Regulations of Connecticut State Agencies. The oversight and evaluations conducted by the Governor's office are vital for ensuring transparency and accountability in the administration of this program.

Reiteration of Information Requested

I am seeking access to and copies of records from the Governor's office / CT DSS, including but not limited to evaluations, oversight records, reviews, assessments, and reports related to the DSS's administration of the ABI Waiver Program. This request encompasses all pertinent records as detailed in my initial application.

Request for Accessibility

Due to a disability, I reiterate my request for the provision of electronic records. This is essential to ensure accessibility and effective communication.

Action Requested

I kindly request a thorough review of my appeal and a reconsideration of the decision. Should there be any parts of the requested documents exempt from disclosure, I ask for a comprehensive written justification for each exemption, with specific references to the relevant statutory provisions. I expect only the exempt portions to be redacted, leaving the rest of the document intact.

In case of a partial or complete denial of this appeal, I seek a detailed written explanation, specifying the statutory exemptions justifying such a decision.

Conclusion

Your attention to this appeal and commitment to transparency and public accountability are highly valued. I anticipate a positive response and look forward to your prompt action in this regard.

Thank you for your time and consideration.

Best regards,
David Medeiros

3. Policies, guidelines, or internal memos detailing the criteria and process for Connecticut Community Care's referrals to the Supported Living Group under the ABI Waiver Program. The Department of Social Services does not have any record of this form of documentation.
4. Records of any complaints, investigations, or audits concerning Connecticut Community Care's referral practices or the Supported Living Group's incentive programs related to the ABI Waiver Program. Still working to verify and compile this information.

11/15/2023 Appeal

In response, regarding my Freedom of Information Act (FOIA) request for the DSS Medicaid ABI Waiver program directory of providers, specifically addressing portions a) & g) of my request.

While I appreciate the efforts made by the Department to contact Allied Community Resources for verification of the directory, it is important to emphasize that the requested directory is a matter of public interest and should be accessible under the FOIA. The FOIA is designed to ensure transparency and access to public records, which includes records maintained or monitored by government agencies.

Your response indicates that Allied Community Resources maintains such a directory but does not distribute it. As this directory is managed and monitored by DSS, it falls within the scope of documents that should be available under FOIA. The assertion that the department does not have access to any documentation or records that include this directory seems incongruent with the nature of the DSS's oversight and management responsibilities.

Therefore, I formally appeal the decision of the Department on the following grounds:

1. **Public Interest:** The directory in question is a vital resource for individuals and families seeking information about qualified providers under the DSS Medicaid ABI Waiver program. Its availability is crucial for ensuring informed decision-making and access to necessary services.
2. **Agency Oversight:** As the DSS oversees and monitors the ABI Waiver program, it is reasonable to expect that the Department would have, or could easily obtain, access to such an essential directory maintained by Allied Community Resources.
3. **Transparency and Accountability:** Withholding this directory contradicts the principles of transparency and accountability that are foundational to public service and the FOIA.

In light of these considerations, I respectfully request that the Department reevaluate its position and provide access to the ABI Waiver program directory of providers. Additionally, I seek clarification on why this directory is not readily available and any reasons for its restricted distribution.

Again and additionally;

g) related to records of public accessibility and procedure.

I am specifically seeking records pertaining to the directory maintained by your department, with a focus on its creation, maintenance, presentation to consumers, and accessibility to the public. This request stems from a concern regarding the apparent lack of visibility and utilization of this directory. For clarity and completeness, I am requesting the following records:

Records on the Creation of the Directory:

4. Documents detailing who is responsible for creating the directory.
5. Records outlining the guidelines or criteria used during its creation.
6. Documentation identifying the specific department or team tasked with this responsibility.

Records on the Maintenance of the Directory:

1. Documents specifying who is in charge of maintaining and updating the directory.
2. Records indicating the frequency and procedures for updates.
3. Documentation related to the measures in place to ensure accuracy and relevance of the information in the directory.

Records on Presentation to Consumers:

1. Documents describing how the directory is presented to consumers.
2. Records of the formats or platforms used (e.g., online portal, printed material).
3. Any user feedback or evaluations that assess the user-friendliness and navigability of the directory.

Records on Public Access:

1. Documents illustrating how the public can access this directory.
2. Records of any restrictions or prerequisites for accessing the directory.
3. Documentation on any efforts made to promote or advertise the directory to the public.

Records on Transparency and Accountability:

1. Documents pertaining to measures ensuring transparency in the management of the directory.
2. Records on public notifications or announcements about the directory's existence and utility.

The provision of these records is crucial in evaluating the effectiveness of the directory as a public resource. Your cooperation in this matter is highly appreciated, and I trust that your department will expediently facilitate the provision of these records in compliance with FOIA guidelines.

Thank you for your attention to this matter.

Sincerely,
David Medeiros

David –

Thank you for your response.

Pertaining to portions a) & g) of your request, the Department of Social Services does not have access to any documentation or records that include a Directory of Qualified Providers. This type of directory and subsequent procedures are maintained by Allied Community Resources. I provided the 2-1-1 map as a means of assisting even though we do not have access to your requested information. It does not fall under the purview of FOIA to create such a document if one does not already exist within the agency.

As I continue to ensure that DSS provides you with accurate and transparent information, I contacted Allied to obtain verification of such a maintained directory. Allied confirmed that they do have such a directory, but that they do not send it out. If your hope is to get added to such list, Allied confirmed that you can [reach out to them here](#), fill out an application, and they will review the submission.

For record retention and tracking on my end, DSS considers all portions of this request, except for d), completed.

Thank you for your patience as we work to compile the additional requested data,

Subject: Re: Directory of Qualified Providers, Medicaid ABI Waiver Program | Freedom of Information Act FOIA Request | Connecticut Gov. 11.13.2023

Dear FOIA Officer,

I am writing in response to your correspondence, regarding my Freedom of Information Act (FOIA) request concerning the Acquired Brain Injury (ABI) Waiver Program. I appreciate your efforts in addressing some of the items listed in my request. However, I would like to bring to your attention a significant discrepancy that requires immediate rectification.

a) Directory of Qualified Providers:

In your response, you referred me to the 2-1-1 interactive map for the Directory of Qualified Providers. I must clarify that this reference does not fulfill the specific request made as 2-1-1 is not the Directory of Qualified Providers. The information provided via the interactive map does not constitute a formal directory and lacks comprehensive details found in the Medicaid ABI Waiver Program Directory of Qualified Providers, such as full contact information, qualifications, and specific services offered by each provider.

Therefore, I reiterate my request for an official, documented Directory of Qualified Providers related to the ABI Waiver Program. This directory should include detailed information about each provider, their qualifications, contact information, and services offered, as initially requested. Additionally, there is an agency provider list and a private provider list, I am requesting both.

Moreover, I request that this information be provided in a document format, rather than a web link, to ensure a comprehensive and accessible review.

Providing accurate and complete information is essential for transparency and effective public oversight of the ABI Waiver Program.

In light of your query for clarification regarding item **g) related to records of public accessibility and procedure**.

I am specifically seeking records pertaining to the directory maintained by your department, with a focus on its creation, maintenance, presentation to consumers, and accessibility to the public. This request stems from a concern regarding the apparent lack of visibility and utilization of this directory. For clarity and completeness, I am requesting the following records:

Records on the Creation of the Directory:

1. Documents detailing who is responsible for creating the directory.
2. Records outlining the guidelines or criteria used during its creation.
3. Documentation identifying the specific department or team tasked with this responsibility.

Records on the Maintenance of the Directory:

1. Documents specifying who is in charge of maintaining and updating the directory.
2. Records indicating the frequency and procedures for updates.
3. Documentation related to the measures in place to ensure accuracy and relevance of the information in the directory.

Records on Presentation to Consumers:

1. Documents describing how the directory is presented to consumers.
2. Records of the formats or platforms used (e.g., online portal, printed material).
3. Any user feedback or evaluations that assess the user-friendliness and navigability of the directory.

Records on Public Access:

1. Documents illustrating how the public can access this directory.
2. Records of any restrictions or prerequisites for accessing the directory.
3. Documentation on any efforts made to promote or advertise the directory to the public.

Records on Transparency and Accountability:

1. Documents pertaining to measures ensuring transparency in the management of the directory.
2. Records on public notifications or announcements about the directory's existence and utility.

Re: Appeal Against Non-Disclosure of Public Records

Dear CT DSS Officer,

I am writing to appeal the response received regarding my request for records related to Connecticut Community Care and The Supported Living Group LLC, concerning Medicaid referrals. I appreciate the information provided, yet I believe further disclosure is necessary under the Connecticut Freedom of Information Act (FOIA).

1. Communication Records: I appreciate your prompt response in providing the correspondence between Connecticut Community Care and The Supported Living Group LLC. However, the volume and scope of the provided communication seem limited, especially considering the significant role these entities play in working with the majority of the ABI Waiver Program population. This raises concerns about the extent and nature of their collaboration, which is pivotal for understanding the Medicaid referral process in its entirety.

Given the critical role of these providers in the ABI Waiver Program, I request a comprehensive disclosure of all communication records, including emails, letters, memos, and any other forms of correspondence between Connecticut Community Care, The Supported Living Group LLC, and any related government agencies. This request extends to any communication that pertains to Medicaid referrals and management of the ABI Waiver Program. – **DSS does not have the capability of running an email search for any non-state emails. All emails provided were all that were included in the search criteria.**

The disclosure of these records is not only essential for ensuring transparency and accountability in the administration of Medicaid services but also for public understanding of how these critical services are being managed and delivered. I urge you to reconsider and provide a complete set of communication records, with redaction of sensitive information as necessary under the law.

2. Contracts or Agreements: I challenge the non-disclosure of contracts or agreements. The public has a legitimate interest in understanding the nature of government contracts with private entities, especially those involving public healthcare programs. Under the Connecticut FOIA, draft versions of contracts are not categorically exempt from disclosure, and I request that these documents be reviewed and released in a redacted form, if necessary, to protect sensitive information. – **I am unaware as to what version of the DRAFT contract is available – therefore you may be looking at a version of a document that was completely scrapped.**

3. Audit or Inspection Reports: I understand the concern regarding personal identifying information in the recent audit report. However, I request a redacted version of the audit, omitting only the personal identifiers, to comply with the transparency required under CGS 1-210. – **The audits were done of client information – the basis of the audit is of identifying information and cannot be shared.**

4. Investigative Reports: The absence of investigative reports is concerning. I request a formal confirmation regarding their non-existence, which is critical for public oversight. – **DSS does not have the requested records.**

5. Training and Guidance Materials: Given that Connecticut Community Care's training materials pertain to Medicaid, a public program, there is a public interest in these materials. I request a reassessment of their classification as non-public records. – **DSS does not have the requested records – as explained CCC has their own training department**

The Connecticut FOIA champions transparency and accountability in government operations. The disclosure of these documents is in the public interest, particularly regarding the functioning and oversight of Medicaid, a program of immense public significance.

I respectfully request a prompt reconsideration of your decision. If these documents cannot be provided, I ask for a detailed legal basis for each refusal.

Thank you for your attention to this matter.

Sincerely,

David Medeiros

Contracts or Agreements: Any contracts, agreements, or MOUs between Connecticut Community Care and any government agency, including Medicaid. – CAU does not have records of these types of agreements as these are subcontracts – **DSS only has a draft version of this contract which is exempt under CGS 1-210**

Audit or Inspection Reports: Documents related to any audits or inspections conducted on Connecticut Community Care by CT DSS or any other related governmental body. – **DSS conducted an audit recently, but it is of/includes personal identifying client information which is exempt under CGS 1-210**

Complaints: Records of complaints filed against Connecticut Community Care, specifically pertaining to Medicaid referrals. – **these were provided to you on 11/21/2023 @ 1:33 PM**

Subject: Appeal Against FOIA Request Denial – Housing and Rental Agreements in Medicaid ABI Waiver Programs 1 and 2

Dear CT DSS FOIA Officer,

I am writing to formally appeal the decision of the Connecticut Department of Social Services (CT DSS) regarding my Freedom of Information Act request dated November 19, 2023. This request concerned housing and rental agreements within the Medicaid Acquired Brain Injury (ABI) Waiver Programs 1 and 2.

Your response which states that DSS does not have any of the requested records, is surprising and contradicts the known operational scope of CT DSS. Given CT DSS's involvement in overseeing housing arrangements in these programs, including auditing and regulatory functions, I strongly believe that relevant records should exist. Therefore, I respectfully challenge this conclusion for the following reasons:

CT DSS's Established Role: The department's involvement in the ABI Waiver Programs, including the oversight of housing arrangements, is well-documented and suggests the existence of pertinent records.

Legal Compliance with FOIA: Under the Freedom of Information Act (5 U.S.C. § 552), public agencies are obligated to provide access to records, barring specific exemptions. The outright denial of such records raises concerns regarding compliance with FOIA mandates.

Necessity for Public Transparency: Understanding how CT DSS manages and audits housing arrangements under these programs is of significant public interest. Transparency in these areas is critical for ensuring accountability.

Request for Detailed Search and Clarification: I urge a more comprehensive search for these records. If these documents are maintained by a different department or agency, I request clear guidance on how to access them.

Accessibility Considerations: As a person with a disability, I require these records in an electronic format, in compliance with the Americans with Disabilities Act (ADA).

Given these considerations, I expect a thorough reevaluation of my FOIA request. Please provide the contact details of the FOIA officer responsible for handling this appeal for any necessary follow-up.

Thank you for your attention to this matter. I look forward to a resolution that reflects the principles of transparency and adherence to legal standards set forth in the FOIA.

Your request

Date: 12/26/2023 Subject: Freedom of Information Act Request – Expedited Processing
Requested I am writing to submit a request under the Connecticut Freedom of Information Act, and Conn. Gen. Stat. § 1-200 et seq. As a brain injury survivor, stroke survivor, and founder of ABI Resources, a company providing disability support services. The purpose of this request is to obtain records pertaining to: • All grievances, complaints, whistleblower complaints, and retaliation complaints. • Any legal cases, including lawsuits or administrative proceedings, relating to civil rights violations, disability discrimination, or whistleblower retaliation within these programs. This request seeks access to records pertaining to all grievances, complaints, whistleblower complaints, and retaliation complaints. This includes any legal cases, lawsuits, or administrative proceedings related to civil rights violations, disability discrimination, or whistleblower retaliation within Connecticut's various state-managed programs The records are critical for understanding the dynamics of interactions within these programs, especially in the context of civil disability rights and whistleblower protections. They are pivotal for informed advocacy and ensuring compliance with legal and ethical standards in these vital areas. I specifically refer to the case of David Medeiros v. State of CT Department of Social Services (CHRO No. 2410220), in which I am directly involved. This case underlines the urgent need for transparency and accountability within state-managed disability support programs. Given the direct connection of this request to the following • Whistleblower Report, Comprehensive Grievance Report and Request for Clarity. Addressing Issues within the Connecticut Medicaid Acquired Brain Injury (ABI) Waiver Program. Whistleblower Report Prepared by: David Medeiros and ABI Resources LLC Date: November 21, 2023 ABI Resources LLC 39 Kings Hwy STE C Gales Ferry, CT. 06226 860 942-0365 • 12.23.2023 Letter - Governor Ned Lamont: Addressing Systemic Failure in ADA Compliance and Disability Discrimination in Connecticut – A Call to Action Against Whistleblower Retaliation and the Failure of CT DSS and CHRO to Uphold Disability Rights. Given my personal circumstances as a brain injury and stroke survivor, timely access to these records is not

just a legal right but a necessity. The nature of my disabilities sometimes imposes barriers to effective self-advocacy and communication. Prompt access to these records is crucial for my ability to manage and respond to the challenges posed by my disabilities. Under the FOIA, there is a provision for expedited processing when the requester demonstrates a compelling need. While there may not be an immediate physical threat in my case, the lack of timely information significantly impairs my rights and advocacy efforts, essential for my wellbeing and that of others relying on my support and expertise. Therefore, I request that my FOIA application be processed on an expedited basis, recognizing these factors. Your prompt attention to this request would support my ongoing efforts to champion the rights and needs of individuals with disabilities. Should any part of my request be denied, I ask for a justification for all deletions by reference to specific exemptions of the Act and expect the release of all segregable portions of otherwise exempt material. I reserve the right to appeal any decision to withhold information or deny a waiver of fees. I anticipate your prompt response to this request within four business days, as specified by the Connecticut Freedom of Information Act. These records are crucial for understanding the dynamics of interactions with these key figures in the context of civil disability rights and whistleblower protections pertaining to these state-managed programs. • Acquired Brain Injury (ABI) Program • Alzheimer's Respite Care Program • Autism Spectrum Disorder - ASD • Birth to Three • Board of Education and Services for the Blind • Care4Kids • Certified Community Behavioral Health Clinics • Child Support • CHOICES - CT's State Health Insurance Assistance Program for Medicare Beneficiaries • Commodity Supplemental Food Program • Community First Choice • Community Options • Connect-Ability • Connecticut AIDS Drug Assistance Program (CADAP) • Connecticut Behavioral Health Partnership - CTBHP • Connecticut Energy Assistance Program • Connecticut Home Care Program For Elders • Connecticut Housing Engagement and Support Services (CHESS) Initiative • Connecticut Integrated Care for Kids • Connecticut Supplemental Nutrition Assistance Program Education (SNAP-Ed) • CT Medicaid Enterprise Technology System (CT METS) • Deaf and Hard of Hearing Services • Department of Rehabilitation Services • Disability Services • Durable Medical Equipment • Economic Security - Financial Assistance • Elderly Simplified Application Project (ESAP) • Electronic Visit Verification • Fatherhood Initiative of CT • Grandparents As Parents • Housing Options for Seniors • Human Services Infrastructure • HUSKY (Medicaid) Coverage for Breast and Cervical Cancer • HUSKY Health (Medicaid & Children's Health Insurance Program) • Jobs First • Long-Term Services and Supports - LTSS • Med-Connect (Medicaid for Employees with Disabilities) • Medicaid Nursing Home Reimbursement • Medicare Savings Program • Money Follows the Person • National Family Caregiver Support Program • Non-Emergency Medical Transportation (NEMT) • Nutrition Assistance Programs • PCA CERTIFICATION TEST • PCMH+ Member Information • Refugee Assistance Program • School Based Child Health (SBCH) • Self Direction Personal Protection Equipment Request Form Submission • Social Work Services • State Supplement for the Aged, Blind and Disabled • Supplemental Nutrition Assistance Program - SNAP • Temporary Family Assistance - TFA • The Personal Care Attendant Program • Welfare to Work (Department of Labor) • Women Infants and Children – WIC These records are crucial for understanding the dynamics of interactions with these key figures in the context of civil disability rights and whistleblower protections.

Expedited processing

yes

Justification for expedited processing

Reason for Expedition and Personal Circumstances: As a survivor of a brain injury and stroke, my condition necessitates prompt access to the requested information. The nature of my disabilities can sometimes impose barriers to effective self-advocacy and communication. Timely access to these records is not just a matter of legal right but also a critical component of my ability to manage and respond to the challenges posed by my disabilities. The potential delay in receiving this information could significantly impact my ability to effectively advocate for myself and others in similar situations. The information requested is crucial for ensuring that rights are not just upheld but actively protected, particularly in the context of disability support and advocacy. Under the FOIA, there is provision for expedited processing when the person requesting the information demonstrates a compelling need. According to the FOIA, a compelling need is defined as a situation where failure to obtain the requested records could reasonably be expected to pose an imminent threat to the life or physical safety of an individual. In my case, while there may not be an immediate physical threat, the lack of timely information significantly impairs my rights and advocacy efforts, which are essential for my wellbeing and that of others who rely on my support and expertise. Therefore, I kindly request that my FOIA application be processed on an expedited basis, in recognition of these factors. Your prompt attention to this request would be greatly appreciated and would support my ongoing efforts to champion the rights and needs of individuals with disabilities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information. Communication Accommodations: Due to my personal circumstances, including living with a

brain injury and being a stroke survivor, I find electronic forms of communication are more effective for my full participation and understanding. These methods allow me to better process, comprehend, and reference the details of our interactions. I kindly request that all communications regarding this FOIA request, including any acknowledgments, updates, or responses, be directed to me via email or written correspondence. Your prompt attention to and accommodation of my request will not only adhere to the legal framework but also support my ongoing commitment to advocating for human rights and improving the Medicaid ABI Waiver Program in Connecticut. I appreciate your understanding and cooperation in this matter. Thank you for your assistance and consideration.

Subject: Freedom of Information Act Request – Expedited Processing
Requested

I am writing to submit a request under the Connecticut Freedom of Information Act, and Conn. Gen. Stat. § 1-200 et seq. As a brain injury survivor, stroke survivor, and founder of ABI Resources, a company providing disability support services.

The purpose of this request is to obtain records pertaining to:

- **All grievances, complaints, whistleblower complaints, and retaliation complaints.**
- **Any legal cases, including lawsuits or administrative proceedings, relating to civil rights violations, disability discrimination, or whistleblower retaliation within these programs.**

This request seeks access to records pertaining to all grievances, complaints, whistleblower complaints, and retaliation complaints. This includes any legal cases, lawsuits, or administrative proceedings related to civil rights violations, disability discrimination, or whistleblower retaliation within Connecticut's various state-managed programs

The records are critical for understanding the dynamics of interactions within

these programs, especially in the context of civil disability rights and whistleblower protections. They are pivotal for informed advocacy and ensuring compliance with legal and ethical standards in these vital areas.

I specifically refer to the case of David Medeiros v. State of CT Department of Social Services (CHRO No. 2410220), in which I am directly involved. This case underlines the urgent need for transparency and accountability within state-managed disability support programs. Given the direct connection of this request to the following

- Whistleblower Report, Comprehensive Grievance Report and Request for Clarity. Addressing Issues within the Connecticut Medicaid Acquired Brain Injury (ABI) Waiver Program. Whistleblower Report Prepared by: David Medeiros and ABI Resources LLC Date: November 21, 2023 ABI Resources LLC 39 Kings Hwy STE C Gales Ferry, CT. 06226 860 942-0365
- 12.23.2023 Letter - Governor Ned Lamont: Addressing Systemic Failure in ADA Compliance and Disability Discrimination in Connecticut – A Call to Action Against Whistleblower Retaliation and the Failure of CT DSS and CHRO to Uphold Disability Rights.

Given my personal circumstances as a brain injury and stroke survivor, timely access to these records is not just a legal right but a necessity. The nature of my disabilities sometimes imposes barriers to effective self-advocacy and communication. Prompt access to these records is crucial for my ability to manage and respond to the challenges posed by my disabilities.

Under the FOIA, there is a provision for expedited processing when the requester demonstrates a compelling need. While there may not be an immediate physical threat in my case, the lack of timely information significantly impairs my rights and advocacy efforts, essential for my wellbeing and that of others relying on my support and expertise.

Therefore, I request that my FOIA application be processed on an expedited basis, recognizing these factors. Your prompt attention to this request would

support my ongoing efforts to champion the rights and needs of individuals with disabilities.

Should any part of my request be denied, I ask for a justification for all deletions by reference to specific exemptions of the Act and expect the release of all segregable portions of otherwise exempt material. I reserve the right to appeal any decision to withhold information or deny a waiver of fees.

I anticipate your prompt response to this request within four business days, as specified by the Connecticut Freedom of Information Act.

Reason for Expedition and Personal Circumstances:

As a survivor of a brain injury and stroke, my condition necessitates prompt access to the requested information. The nature of my disabilities can sometimes impose barriers to effective self-advocacy and communication. Timely access to these records is not just a matter of legal right but also a critical component of my ability to manage and respond to the challenges posed by my disabilities.

The potential delay in receiving this information could significantly impact my ability to effectively advocate for myself and others in similar situations. The information requested is crucial for ensuring that rights are not just upheld but actively protected, particularly in the context of disability support and advocacy.

Under the FOIA, there is provision for expedited processing when the person requesting the information demonstrates a compelling need. According to the FOIA, a compelling need is defined as a situation where failure to obtain the requested records could reasonably be expected to pose an imminent threat to the life or physical safety of an individual. In my case, while there may not be

an immediate physical threat, the lack of timely information significantly impairs my rights and advocacy efforts, which are essential for my wellbeing and that of others who rely on my support and expertise.

Therefore, I kindly request that my FOIA application be processed on an expedited basis, in recognition of these factors. Your prompt attention to this request would be greatly appreciated and would support my ongoing efforts to champion the rights and needs of individuals with disabilities.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information.

Communication Accommodations:

Due to my personal circumstances, including living with a brain injury and being a stroke survivor, I find electronic forms of communication are more effective for my full participation and understanding. These methods allow me to better process, comprehend, and reference the details of our interactions. I kindly request that all communications regarding this FOIA request, including any acknowledgments, updates, or responses, be directed to me via email or written correspondence.

Your prompt attention to and accommodation of my request will not only adhere to the legal framework but also support my ongoing commitment to advocating for human rights and improving the Medicaid ABI Waiver Program in Connecticut. I appreciate your understanding and cooperation in this matter.

Thank you for your assistance and consideration.

Subject: Freedom of Information Act Request – Expedited Processing
Requested

I am writing to submit a request under the Connecticut Freedom of Information Act, and Conn. Gen. Stat. § 1-200 et seq. As a brain injury survivor, stroke survivor, and founder of ABI Resources, a company providing disability support services.

The purpose of this request is to obtain records pertaining to:

- **All grievances, complaints, whistleblower complaints, and retaliation complaints.**
- **Any legal cases, including lawsuits or administrative proceedings, relating to civil rights violations, disability discrimination, or whistleblower retaliation within these programs.**

This request seeks access to records pertaining to all grievances, complaints, whistleblower complaints, and retaliation complaints. This includes any legal cases, lawsuits, or administrative proceedings related to civil rights violations, disability discrimination, or whistleblower retaliation within Connecticut's various state-managed programs

The records are critical for understanding the dynamics of interactions within

these programs, especially in the context of civil disability rights and whistleblower protections. They are pivotal for informed advocacy and ensuring compliance with legal and ethical standards in these vital areas.

I specifically refer to the case of David Medeiros v. State of CT Department of Social Services (CHRO No. 2410220), in which I am directly involved. This case underlines the urgent need for transparency and accountability within state-managed disability support programs. Given the direct connection of this request to the following

- 12.23.2023 Letter - Governor Ned Lamont: Addressing Systemic Failure in ADA Compliance and Disability Discrimination in Connecticut – A Call to Action Against Whistleblower Retaliation and the Failure of CT DSS and CHRO to Uphold Disability Rights.

Given my personal circumstances as a brain injury and stroke survivor, timely access to these records is not just a legal right but a necessity. The nature of my disabilities sometimes imposes barriers to effective self-advocacy and communication. Prompt access to these records is crucial for my ability to manage and respond to the challenges posed by my disabilities.

support my ongoing efforts to champion the rights and needs of individuals with disabilities.

Should any part of my request be denied, I ask for a justification for all deletions by reference to specific exemptions of the Act and expect the release of all segregable portions of otherwise exempt material. I reserve the right to appeal any decision to withhold information or deny a waiver of fees.

I anticipate your prompt response to this request within four business days, as specified by the Connecticut Freedom of Information Act.

News Media Outlets and Journalists:

Reporters Committee for Freedom of the Press, The New York Times, The Washington Post The Associated Press (AP), ProPublica, The Wall Street Journal, National Public Radio (NPR) Reuters, CNN, BuzzFeed News, VICE News, Fox News, NBC, MSNBC etc.

Reason for Expedition and Personal Circumstances:

As a survivor of a brain injury and stroke, my condition necessitates prompt access to the requested information. The nature of my disabilities can sometimes impose barriers to effective self-advocacy and communication. Timely access to these records is not just a matter of legal right but also a critical component of my ability to manage and respond to the challenges posed by my disabilities.

The potential delay in receiving this information could significantly impact my ability to effectively advocate for myself and others in similar situations. The information requested is crucial for ensuring that rights are not just upheld but actively protected, particularly in the context of disability support and advocacy.

Under the FOIA, there is provision for expedited processing when the person requesting the information demonstrates a compelling need. According to the FOIA, a compelling need is defined as a situation where failure to obtain the requested records could reasonably be expected to pose an imminent threat to the life or physical safety of an individual. In my case, while there may not be

an immediate physical threat, the lack of timely information significantly impairs my rights and advocacy efforts, which are essential for my wellbeing and that of others who rely on my support and expertise.

Therefore, I kindly request that my FOIA application be processed on an expedited basis, in recognition of these factors. Your prompt attention to this request would be greatly appreciated and would support my ongoing efforts to champion the rights and needs of individuals with disabilities.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information.

Communication Accommodations:

Due to my personal circumstances, including living with a brain injury and being a stroke survivor, I find electronic forms of communication are more effective for my full participation and understanding. These methods allow me to better process, comprehend, and reference the details of our interactions. I kindly request that all communications regarding this FOIA request, including any acknowledgments, updates, or responses, be directed to me via email or written correspondence.

Your prompt attention to and accommodation of my request will not only adhere to the legal framework but also support my ongoing commitment to advocating for human rights and improving the Medicaid ABI Waiver Program in Connecticut. I appreciate your understanding and cooperation in this matter.

Thank you for your assistance and consideration.

Subject: Freedom of Information Act Request – Expedited Processing
Requested

I am writing to submit a request under the Connecticut Freedom of Information Act, and Conn. Gen. Stat. § 1-200 et seq. As a brain injury survivor, stroke survivor, and founder of ABI Resources, a company providing disability support services.

The purpose of this request is to obtain records pertaining to:

- **All grievances, complaints, whistleblower complaints, and retaliation complaints.**
- **Any legal cases, including lawsuits or administrative proceedings, relating to civil rights violations, disability discrimination, or whistleblower retaliation within these programs.**

This request seeks access to records pertaining to all grievances, complaints, whistleblower complaints, and retaliation complaints. This includes any legal cases, lawsuits, or administrative proceedings related to civil rights violations, disability discrimination, or whistleblower retaliation within Connecticut's various state-managed programs

The records are critical for understanding the dynamics of interactions within

these programs, especially in the context of civil disability rights and whistleblower protections. They are pivotal for informed advocacy and ensuring compliance with legal and ethical standards in these vital areas.

I specifically refer to the case of David Medeiros v. State of CT Department of Social Services (CHRO No. 2410220), in which I am directly involved. This case underlines the urgent need for transparency and accountability within state-managed disability support programs. Given the direct connection of this request to the following

- Whistleblower Report, Comprehensive Grievance Report and Request for Clarity. Addressing Issues within the Connecticut Medicaid Acquired Brain Injury (ABI) Waiver Program. Whistleblower Report Prepared by: David Medeiros and ABI Resources LLC Date: November 21, 2023 ABI Resources LLC 39 Kings Hwy STE C Gales Ferry, CT. 06226 860 942-0365
- 12.23.2023 Letter - Governor Ned Lamont: Addressing Systemic Failure in ADA Compliance and Disability Discrimination in Connecticut – A Call to Action Against Whistleblower Retaliation and the Failure of CT DSS and CHRO to Uphold Disability Rights.

Given my personal circumstances as a brain injury and stroke survivor, timely access to these records is not just a legal right but a necessity. The nature of my disabilities sometimes imposes barriers to effective self-advocacy and communication. Prompt access to these records is crucial for my ability to manage and respond to the challenges posed by my disabilities.

Under the FOIA, there is a provision for expedited processing when the requester demonstrates a compelling need. While there may not be an immediate physical threat in my case, the lack of timely information significantly impairs my rights and advocacy efforts, essential for my wellbeing and that of others relying on my support and expertise.

Therefore, I request that my FOIA application be processed on an expedited basis, recognizing these factors. Your prompt attention to this request would

support my ongoing efforts to champion the rights and needs of individuals with disabilities.

Should any part of my request be denied, I ask for a justification for all deletions by reference to specific exemptions of the Act and expect the release of all segregable portions of otherwise exempt material. I reserve the right to appeal any decision to withhold information or deny a waiver of fees.

I anticipate your prompt response to this request within four business days, as specified by the Connecticut Freedom of Information Act.

Reason for Expedition and Personal Circumstances:

As a survivor of a brain injury and stroke, my condition necessitates prompt access to the requested information. The nature of my disabilities can sometimes impose barriers to effective self-advocacy and communication. Timely access to these records is not just a matter of legal right but also a critical component of my ability to manage and respond to the challenges posed by my disabilities.

In my case, while there may not be

an immediate physical threat, the lack of timely information significantly impairs my rights and advocacy efforts, which are essential for my wellbeing and that of others who rely on my support and expertise.

Therefore, I kindly request that my FOIA application be processed on an expedited basis, in recognition of these factors. Your prompt attention to this request would be greatly appreciated and would support my ongoing efforts to champion the rights and needs of individuals with disabilities.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information.

I kindly request that all communications regarding this FOIA request, including any acknowledgments, updates, or responses, be directed to me via email or written correspondence.

Your prompt attention to and accommodation of my request will not only adhere to the legal framework but also support my ongoing commitment to advocating for human rights and improving the Medicaid ABI Waiver Program in Connecticut. I appreciate your understanding and cooperation in this matter.

Subject: Freedom of Information Act Request – Medicaid ABI Waiver Program 1 Consumer Data and Financials

Dear Freedom of Information Officer,

Pursuant to the Freedom of Information Act (5 U.S.C. 552), I am requesting access to and copies of documents containing the following information related to the Medicaid Acquired Brain Injury (ABI) Waiver Program 1: I am requesting access to and copies of all documents, communications, emails, memos, guidelines, and reports related to the following:

- a) Number of Consumers: Documents detailing the total number of consumers currently enrolled in Medicaid ABI Waiver Program 1 who are receiving care management consultation services.
- b) Service Breakdown: A breakdown of the types of care management consultation services being provided to these consumers, including any relevant service descriptions or categorizations.
- c) Financial Data: Complete financial reports or data related to the funding, cost, and expenditure associated with providing care management consultation services to consumers in ABI Waiver Program 1. This should include both overall program costs and specific costs per consumer, if available.
- d) Funding Sources: Information on the sources of funding for these services, including state and federal contributions, grants, or any other financial support mechanisms.
- e) Cost-Benefit Analyses: Any cost-benefit analyses or financial assessments conducted by the Department regarding the provision of care management consultation services in the ABI Waiver Program 1.

If my request is denied wholly or partially, I ask that you justify all deletions by reference to specific exemptions of the Act. Please release all segregable portions of otherwise exempt material.

I require these records in an accessible electronic format due to my disability. If some documents are exempt from disclosure, please provide a Vaughn index detailing the reasons for such exemption.

Your prompt attention to this matter is crucial for ensuring the welfare and fair treatment of ABI Waiver Program consumers. I trust that the Department of Social Services will address these concerns with the urgency and professionalism they warrant.

Thank you for your cooperation and assistance in this matter.

Sincerely,

David Medeiros
